Dear Councillors Buchanan and Hagmann,

The Committee has received correspondence from Magic Breakfast regarding the provision of breakfast to children in Scotland.

At its meeting on 28 June, the Committee noted its correspondence and agreed to seek further information on this issue.

The Committee therefore agreed to write to COSLA to ask for any information it has regarding the provision of free breakfasts in schools, including on any work that it has carried out and any feedback that it has on this issue.

In particular, it would be helpful for the Committee to understand the scale of provision currently available, with any examples of the work being done.

The Committee would welcome a response, in a Word format, by **Friday 28 July**.

Yours sincerely

Sue Webber MSP
Convener
