

There's been no progress made in fixing my building.

We've been told a survey would be this summer. Since then, not had any updates. The factor (as of last week) had had no update either.

We have a building manager (may be known as a different title internally) who is knowledgeable and I can reach out to but as yet hasn't been able to tell us a firm timeline.

Things may have moved on since I last spoke to anyone at SG but if they have, I've not been made aware.

Happy to help in any way I can!

Thanks

Alan
