## Net Zero, Energy and Transport Committee

Chief Executives  
Scottish Local Authorities

**4 December 2024**

Dear Chief Executive,

### **Environmental Authorisations (Scotland) Amendment Regulations 2025**

On 3 December, the Net Zero, Energy and Transport Committee discussed the above regulations and agreed to gather more information from the Scottish Government and various stakeholders before considering the instrument at a future meeting. Please find below a list of questions.

Do you wish to raise any concerns or points regarding the potential impact of the Regulations on:

1. Your operational activities, including waste management
2. Your regulatory and monitoring responsibilities
3. The environment or communities in your area

Given the limited timeframe in which the Committee has to consider the regulations, we would appreciate a response by **Monday 30 December 2024**.

I apologise for this short deadline, which is necessitated by the nature of the parliamentary process for scrutiny of subordinate legislation which allows only 40 days for the Committee to consider. The Committee has requested that the Scottish Government withdraw the regulations and re-lay them early in the New Year to allow the Committee more time for scrutiny. If the Scottish Government agrees to this request, we can revisit this deadline to allow you more time to respond.

Yours sincerely,

**Edward Mountain MSP**  
Convener
