Dear Ariane,

I am writing to make you aware that in the [second of the EU law tracker reports](#) commissioned by the Constitution, Europe, External Affairs and Culture Committee, two case studies were set out that related to energy efficiency within buildings (see pages 33 to 35 of the report).

The report suggests that the Net Zero, Energy and Transport (NZET) Committee may wish to write to the Scottish Government seeking some further information relevant to these case studies.

However, the NZET Committee is aware that these fall within a remit more usually covered by the Local Government, Housing and Planning (LGHP) Committee, for example, in your work preparing for possible future legislation on decarbonised heat in buildings.

We therefore agreed to draw the case studies to your attention and ask if the LGHP Committee is content to lead on them.

Yours sincerely,

Edward Mountain MSP
Convener
Net Zero, Energy and Transport Committee
