

# Follow-up inquiry into salmon farming in Scotland

## Fisheries Management Scotland, 27 June 2024

Dear Sir/Madam,

### **Amendment to oral evidence given at RAI Committee - 26 June 2024**

Thank you for giving Fisheries Management Scotland the opportunity to present evidence as part of the follow-up inquiry into salmon farming in Scotland. Having reviewed the session, I realised that I made an error that I would like to correct.

In answer to one of Finlay Carson's questions about escapes (11:18:30 on the video feed), I stated that a District Salmon Fishery Board reported escapes to the Fish Health Inspectorate in August 2020, and that FHI did not conduct a farm visit until November 2022. The original report was in fact in **August 2022**.

Please don't hesitate to contact me if you have any further questions.

Yours faithfully,

Alan Wells  
CEO Fisheries Management Scotland
