Motions for Debate

***[S6M-13602](#) Shona Robison: Scottish Government Priorities: Investing in Scotland's Public Services**—That the Parliament welcomes the Scottish Government's continued investment in public services and shares its commitment to maintaining high-quality services that people in Scotland need; recognises the key role that the workforce plays in delivering public services and welcomes that public sector pay is higher in Scotland than other parts of the UK; acknowledges the importance of a socially just and progressive approach to public service design and delivery, underpinned by fair work and a progressive tax policy; agrees that the UK Spring Budget fell far short of what Scotland needs to deliver further investment in public services and infrastructure, and will result in a cut in the Scottish core block grant of around £0.4 billion in real terms in 2024-25 compared with 2022-23; is concerned that significant, real-terms spending cuts, assessed by the Institute of Fiscal Studies as being up to £20 billion by 2028 across the UK, will be needed as a result of the economic plans of either a Labour or Conservative UK administration; calls on the incoming UK administration to bring forward an emergency budget to restore the £1.3 billion cut in Scotland's capital budget, and notes that, for as long as the Scottish Government remains on a fixed budget under the current devolution settlement, there are limits to what it can achieve in terms of investment in public services.

***[S6M-13569](#) Clare Haughey: Raising Awareness of Liver Disease** —That the Parliament understands that, in the UK, there are more than 10,000 deaths due to liver disease each year, and that there has been a four-fold increase in death rates over the last 50 years; further understands that liver disease is closely linked to health inequalities, with key risk factors such as obesity, alcohol misuse and viral hepatitis most prevalent in the most marginalised and disadvantaged communities, including those in the Rutherglen constituency; understands that, while 90% of liver disease is preventable, mortality rates for chronic liver disease are now 5.5 times higher in the most deprived areas compared to the most affluent; notes the belief that greater focus on prevention and earlier detection of liver disease is essential to save lives, including through public health policies to reduce the health harms of alcohol and unhealthy food

and drinks that are high in fat, salt and sugar, and pays tribute to the British Liver Trust for all of its work in raising awareness of liver disease, including through its Love Your Liver roadshow.

***S6M-13405 Collette Stevenson: Research Highlighting Link between Scottish Child Payment and Reducing Food Bank Use**—That the Parliament welcomes the Scottish Government’s delivery of the Scottish Child Payment (SCP), which, it believes, is crucial to the Scottish Government’s aims to reduce child poverty and end the need for food banks in Scotland; further welcomes reports that, overall, Scottish Government policies, including the SCP, are estimated to be keeping 100,000 children in Scotland out of relative poverty; regrets the increased demand for foodbanks in recent years, following what it considers to be 14 years of UK Government austerity and the current cost of living crisis; understands that the Trussell Trust network distributed a record number of emergency food parcels across the UK in 2023-24, exceeding 3.1 million parcels, including 262,400 parcels distributed in Scotland in 2023-24, with 86,000 of these for children; notes Trussell Trust statistics showing that Scotland has had the lowest increase of the four nations in food parcel distribution in the five year period 2018-19 to 2023-24, with an increase of 21%, compared with a 109% increase in England; further notes that Scotland is the only nation to have seen a decrease in the number of parcels distributed by the Trussell Trust in 2023-24 compared with the previous year; considers that the data from the Trussell Trust, although insightful and important, does not offer a full picture of food bank use in Scotland, as there is a wide range of charitable food provision that is not as comprehensively recorded; commends organisations such as East Kilbride Community Food Bank and Loaves and Fishes for supporting people in East Kilbride; understands that preliminary research from the Fraser of Allander Institute, commissioned by the Trussell Trust, which reports on the impact of the Scottish Child Payment on food bank use, indicates that, since the roll-out of the SCP, there has been a statistically significant decrease in the numbers of parcels provided to households with children aged five to 16 (without younger children) and single-adult households with children under five; notes the calls on the next UK administration to scrap the two-child limit and introduce an Essentials Guarantee, to ensure that people on Universal Credit have enough money for living, and notes the view that such measures could lift thousands more people out of poverty; further notes the view that further monitoring and research is required to identify the impact of SCP over a longer time period; acknowledges that the Social Justice and Social Security Committee had an evidence session related to the Scottish Child Payment on 23 May 2024; notes Professor Ruth Patrick’s analysis that the Scottish Child Payment is a “really well-targeted policy” and is a “way of correcting” the UK Government’s “divorcing of the relationship between needs and entitlement”, Professor Danny Dorling’s view that “Scotland is doing such interesting and different things” and his previous remarks that the Scottish Child Payment is the single policy intervention that has had the biggest impact on reducing child poverty in Europe in 40 years, and evidence from Tom Wernham of the Institute for Fiscal Studies, stating that the Scottish Child Payment “will have significantly increased the incomes of people who are well below the poverty line”; welcomes the further increase in the Scottish Child Payment to £26.70 per eligible child per week in the Scottish Government’s 2024-25 Budget; further welcomes what it considers is the positive impact that the SCP is having on families in Scotland, and notes the view that work is required on a cross-party and cross-Parliament basis to eradicate what it sees as the scourge of child poverty on our society.

***[S6M-13595](#) Kevin Stewart: Congratulations to Great Western Community Trust**—That the Parliament congratulates Great Western Community Trust on successfully taking ownership of the former Holburn West Church in Aberdeen; understands that the church, which dates back to 1893 and sits on the corner of Great Western Road and Ashley Park Drive, became redundant after 130 years due to reorganisation in the Church of Scotland; further understands that the project, which will see the church turned into a community facility and has been backed by the local community, will enable breakfast and after-school clubs for the local Ashley Road and Broomhill primary schools to continue, as well as other clubs, classes and services already operating from the building; believes that the new facility will benefit the local community greatly, and wishes the Trust every success with its plans for future expansion of services and activities in the new community centre.

Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
